

ASX ANNOUNCEMENT

24 February 2020

PERMIT RECEIVED FOR RIO ZARZA DRILLING TO COMMENCE

- **Water permit received allows Tempus to use water for advanced exploration (including drilling)**
- **Rio Zarza is located adjacent to the producing world class Fruta del Norte gold project, operated by Lundin Gold (TSX: LUG)**
- **Finalisation of priority drill targets and appointment of drilling contractor expected in the coming weeks**
- **Drilling to commence in Q2 2020**

Tempus Resources Ltd (“**Tempus**” or “the **Company**”) is pleased to announce receipt of the much anticipated water permit for the Rio Zarza concession, the most advanced of the Company’s Zamora Projects, located in southern Ecuador.

The permit allows the Company to use water for advanced exploration, including drilling, and allows for implementation of the Company’s initial drilling program at the prospect, located immediately adjacent to the world class Fruta del Norte gold mine, that has recently commenced production for Lundin Gold (TSX:LUG).

Final results and data products from the recently completed detailed geochemical and airborne geophysical surveys are expected in the coming weeks, and will be used by our Project team to prioritise and refine drill-hole specifications for the upcoming drilling program.

Tempus is in the process of evaluating tenders submitted for the upcoming drilling program, with the program scheduled to commence in Q2 2020.

Managing Director, Mr. Brendan Borg, commented:

“We are pleased to have successfully navigated the permitting process for Rio Zarza, which allows us to get on with implementing our much anticipated and exciting drilling program in a highly prospective part of Ecuador.”

This announcement has been authorised by the Board of Directors of Tempus Resources Limited.
